

# EXPO 2020 PLASTIC PLEDGE PLANET OVER PLASTIC

**We challenge you to make your impact!**

To deliver one of the most sustainable World Expos in history, we need your support in combating single-use plastic waste.

More than 40% of all plastics produced are for single-use. The impact on our environment is destructive.

Join us in fortifying our stance on choosing planet over plastic.

By signing this Pledge, you are joining a movement to minimize the impact of single-use plastics during Expo 2020 Dubai. This entails that your pavilion will meet or exceed The RISE Guidelines.

---

**As an International Participant at Expo 2020 Dubai, we pledge to meet or exceed the RISE Guidelines during the event, choosing to make a stance for planet over plastic.**
